SUMMARY

Full Stack Developer (MERN) with strong foundations in Data Structures and Algorithms. Experienced in building scalable web applications using React, Node.js, Express, MongoDB, and MySQL. Solved 400+ DSA problems and actively contributing to open-source projects while improving backend and system design skills.

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- Solved **800+ Data Structures and Algorithms problems** across LeetCode, GeeksforGeeks, Codeforces, and HackerRank
- Strong understanding of arrays, strings, recursion, trees, graphs, and basic dynamic programming
- Regular participant in online coding contests to improve problem-solving speed and accuracy

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, SQL

Core CS: Data Structures & Algorithms, OOPs, DBMS

Web Development: HTML, CSS, React.js, Redux, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

CERTIFICATIONS & TRAINING

- **Java Programming Course** – Anudip Foundation
- Gained strong understanding of core Java concepts including OOP principles, exception handling, collections, and basic multithreading
- Practiced problem-solving using Java and applied concepts through hands-on assignments

PROJECTS

- **Myzon – E-commerce Web Application**
React.js, Node.js, Express.js, MongoDB
 - Built a full-stack MERN e-commerce application with JWT-based user authentication
 - Implemented product listing, cart management, and order APIs
 - Designed responsive UI and integrated backend services
- **Job Portal Web Application**
React.js, Node.js, Express.js, MongoDB
 - Developed a job portal with role-based authentication for recruiters and candidates
 - Implemented job posting, application tracking, and secure REST APIs
 - Handled form validation, protected routes, and backend authorization
- **URL Shortener Service**
Node.js, Express.js, MongoDB
 - Developed a backend service to generate and manage shortened URLs
 - Implemented redirection logic and database indexing for performance
 - Tested APIs using Postman and handled edge cases

OPEN SOURCE CONTRIBUTIONS

- Contributed to beginner-friendly open-source repositories by fixing bugs and improving documentation
- Submitted pull requests involving JavaScript, React, and CSS improvements
- Gained experience collaborating through GitHub issues, code reviews, and version control workflows

EDUCATION

- **Alard College of Engineering & Management**
Bachelor of Engineering in Electronics & Telecommunication Engineering

Pune, India
2023 – 2027
